

LAND ALTERNATIVE CONSIDERATIONS

What should be done with the BLM tracts?

The BLM has many options for what to do with the tracts on the Ft. Morgan Peninsula.

- Retention – BLM retains ownership of the land and manages it exclusively
- Partnership – BLM retains ownership and brings in a partner or partners to manage the land
- Withdrawal – BLM would retain ownership of the land and transfer management responsibilities to the USFWS through a land withdrawal.
- Disposal – Disposal of tracts from BLM ownership. For example, BLM could offer the lands for exchange (elsewhere) that have higher potential for long term BLM management.
- Recreation and Public Purpose (R&PP) – BLM could enter into an R&PP lease or patent with the state or a local government or other entity for use for a qualified public purpose, e.g. park, schools, public facility, etc.

*The BLM has made no decisions about these tracts.
We welcome your input.*
